

New Source Review newspaper advertisements for construction permit applications, October 2, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: September 30, October 1, or October 2, 2008. Public notices are generally published every two weeks. The previous publication of public notices was September 18, 2008.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Precise Corporation with a mailing address of 2038 Highway 116, Caryville, TN 37714. This company seeks to obtain an air contaminant permit (Division identification number: 07-0127-02/61812) for the construction of a lead smelting operation located at the same address. This operation consists of the three primary units with 1,000 pound capacity and one unit with 2,700 pound capacity. There would be physical construction. Regulated air contaminants are emitted by this source. Fabric filters would be used for pollution control. Mr. Doug Warden is the assigned Division person.

For the Campbell County *LaFollette Press* --published once on or before Thursday, October 2, 2008.

The applicant is Beaty Lumber, Inc. with a mailing address of PO Box 826, Jamestown, TN 38556. They seek to obtain an air contaminant permit (Division identification number: 25-0065-01/61498) for construction of a wood chipping operation at 381 Wheeler Lane, Jamestown, TN 38556. This existing operation consists of a wood chipper and associated equipment used to process lumber. A cyclone is used for pollution control. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. Doug Wright is the assigned Division person.

For the Fentress County *Fentress Courier* -- published once on or before Thursday, October 2, 2008.

The applicant is ORNL-UT-Battelle, LLC, with a mailing address of PO Box 2008, Oak Ridge, TN 37831. They seek to obtain an air contaminant permit (Division identification number 73-0112-04/62300) to construct a Biomass Gasification System located at Bethel Valley Road, Oak Ridge, TN 37831. This proposed operation would consist of biomass boilers and associated equipment used to provide steam and electricity. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Jabari Martin is the assigned Division person.

For the Roane County *News* -- published once on or before Thursday October 2, 2008.

The applicant is imi Tennessee, Inc. with a mailing address of 2617 Grandview Avenue, Nashville, TN 37211. They seek to obtain an air contaminant permit (Division identification number: 72-0133-01/62336 to construct a Concrete Batch Plant Operation at 220 Hurst Lane, Dayton, TN 37321. This proposed operation consists of gravel, and sand stockpiles, cement silo, a batch mixer, and associated equipment that are used to produce ready-mix concrete. Silo vent filters and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Benjamin is the assigned Division person.

For the Rhea County *Herald-News* -- published once on or before October 2, 2008.
